

### **C. Measurement Focus, Basis of Accounting and Financial Statement Presentation**

The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Nonexchange transactions, in which the County gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The County considers all revenues reported in the governmental funds to be available if the revenues are collected within 60 days after year-end. The primary revenue sources susceptible to accrual are property taxes, which are recognized as deferred revenue until cash is received, and grant income, which is accrued when the legal and contractual requirements of the individual programs are met. Expenditures are recorded when incurred. However, expenditures for principal and interest on general long-term debt, compensated absences, and claims and judgments are recorded when due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources.

The agency funds have no measurement focus but utilize the accrual basis of accounting for reporting its assets and liabilities.

The County reports the following major governmental funds:

The **General Fund** is the County's primary operating fund. It accounts for all financial resources of the County, except those required to be accounted for in another fund.

The **Road Improvements Bond 2008 Fund** accounts for the planning, engineering and construction of roads within Rockwall County. Bonds will be issued to finance this project.

The **Debt Service Fund** accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

Additionally, the County reports the following fund types:

**Special Revenue Funds** account for the revenue sources that are designated to finance particular functions or activities or are legally restricted to expenditures for specified purposes.
