

### III. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

#### A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

The governmental fund balance sheet includes reconciliation between fund balance – total governmental funds and net position – governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains, “Some liabilities, (such as notes payable, capital lease contract payable, long-term compensated absences, and bond payable), are not due and payable in the current period and are not included in the fund financial statement, but are included in the governmental activities of the Statement of Net Position.” The details of this \$(118,348,711) difference are as follows:

Tax notes	\$( 103,240,000)
Refunding Bond	\$( 7,370,000)
Premium on bonds	( 3,632,124)
Deferred charge on refunding	189,111
Accrued interest payable	( 748,915)
Compensated absences	( 798,975)
Net OPEB obligation	<u>( 2,747,808)</u>
Net adjustment to reduce <i>fund balance - total governmental funds</i> to arrive at <i>net position - governmental activities</i>	<u><u>\$( 118,348,711)</u></u>

#### B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenue, expenditures and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental fund and changes in net position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains, “Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.” The details of this \$1,322,580 difference are as follows:

Capital outlay	\$ 3,599,185
Depreciation expense	<u>( 2,276,605)</u>
Net adjustment to decrease <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i>	<u><u>\$ 1,322,580</u></u>
